

BROADCAST TELESTRATOR

A visually captivating, story telling tool for talent

www.pointhd.com

- ▶ Easy to use by talent
- ▶ Full HD & SD Support
- ▶ Studio & OB Truck Systems
- ▶ Two cable setup
- ▶ Multiple Touch Screens & iPad
- ▶ On Board Keyer / Key & Fill Out
- ▶ Web Pages in HD
- ▶ Easy to customise look & feel

POINT-HD is unlike any other Telestrator you have encountered before.

Beneath the easy to use, talent friendly touch screen interface, are layers of powerful tools, functions & customisation options, making the POINT-HD a real time, interactive graphics solution that producers & talent love to use. Works in any HD or SD video format, simple setup menu, an on-board switchable Keyer allows outputs to be configured for composited or Key & Fill. Genlock to Input ability provides quick setup for OB use, with just two video cables.

Easily customise the look and feel of graphic elements & talent interface, allowing consistent channel branding. Each show or Talent can have their own custom set of tools and interface layouts, with on-air recall of multiple interfaces at a touch of a button, switching back and forth between talent & show segments is fast & simple.

Easy to integrate within any production workflow, POINT-HD does not require additional production operators in the back end control room to operate.

POINT-HD is driven by talent, to tell their story in a way which will captivate viewers.

SPORTS

Ideal for any sports analysis, OB or studio configurations with multiple touch screen capability, Talent VT control, team / roster line up, fast real time operation with stunning graphics.

NEWS

WEATHER
